

WHAT "GROW 1%" MEANS FOR YOU

We encourage all members to consider proportional giving - what portion of your income is faithful for you? As last year, we also ask that you consider "growing 1%", that is, calculating one percent of your total income, and adding that to your total giving this year.

Household Income	Yearly increase (1%)	Monthly Increase
\$30,000	\$300	\$25
\$60,000	\$600	\$50
\$90,000	\$900	\$75
\$120,000	\$1,200	\$100
\$150,000	\$1,500	\$125
\$180,000	\$1,800	\$150
\$210,000	\$2,100	\$175
\$240,000	\$2,400	\$200
\$270,000	\$2,700	\$225
\$300,000	\$3,000	\$250

Your 2017 pledge: _____ per month or per year?

Your increase: _____ per month or per year?

Your 2018 pledge: _____ per month or per year?

We acknowledge that everyone's financial circumstances are unique to them, their family and their stage of life. We also understand that our membership gives to organizations other than PCOL and we encourage that. We ask you consider growing your overall giving because giving is one of the things we do as Christians that helps us grow spiritually.

This year's stewardship theme is from Proverbs 3:9-10 which states, "Honor the Lord with your wealth and with the first portion of your harvest; then your barns will be filled with plenty, and your vats will be bursting with wine."
